Applicant's First and Last Name

Permanent Address

Email Address

If a team is applying, the names of the other team members

Brief Professional CV of the Applicant (Maximum 1,000 Characters)

Applicant's Declaration

By submitting this application to this competition, I fully accept the competition rules published on 12 September 2026 at <https://nsupraha.cz/program/art-and-bitcoin/>

I further declare that:

I am at least 18 years of age.

I have no conflict of interest, nor am I in a close familial or financial relationship with the individuals preparing this competition on behalf of the contracting authority, the organizer, or the members of the expert committee.

I comply with Article 50 of the EU AI Act, meaning that the submitted project is the exclusive work of myself /our creative team/, and if I have used AI tools to create or modify any part of the content, such content is appropriately labelled.

The submitted project complies with ethical standards based on the UN Charter and the Universal Declaration of Human Rights.

I acknowledge that the fundamental principle of the competition is the subsequent open and worldwide publication of the winning entry. Should my proposal be selected as the winning entry, I undertake to enter into a licence agreement with the contracting authority, under which the winning entry and the documentation required for its implementation will be made available under the Creative Commons Attribution-ShareAlike 4.0 International (CC BY-SA 4.0), and, in the case of software components, under the Apache Licence 2.0 or another standard open-source licence pre-approved by the client with a comparable scope of rights.

I acknowledge that the licence granted in this way will allow third parties to implement, copy, publish, distribute, modify and further use the work free of charge and without further consent from the author, anywhere in the world, including for commercial purposes, provided that the relevant licence conditions and the obligation to provide attribution are complied with.

I acknowledge that the specific licence agreement will be drawn up in accordance with the nature of the winning work; however, it must not alter or restrict the above-mentioned basic licence terms. I also agree that the public licence information attached to the work and its documentation shall include details of my authorship and information about the project and its partners via standardised attribution and a permanent public link. This public information shall also serve as an unambiguous source of information on the licence and the required attribution for future implementers and users of the work.
